

Rooker

ROOKER Increases Property NOI through Solar PPA with Green Power EMC

Location:

140 Voyles Rd
Athens, GA

About Rooker:

ROOKER is a privately owned real estate, development, and design/build construction firm. Recognized as one of the industry's most experienced construction and development firms, ROOKER has developed over 500 sites over the last 40 years and has more than 50 million square feet of new construction to its credit.

Project Specs:

- Capacity:** 115.44kW DC @ STC
- Racking:** S5! Standing Seam
- Module:** Suniva ART245-60-2 (240W)
- Inverters:** (1) PV Power 100kW
- DAS:** DAS:Deck Monitoring with Full Weather Station

Summary:

This 115 kW grid-tied rooftop array was installed on an industrial building owned by ROOKER in Athens, GA. The project is interconnected with Jackson EMC pursuant to a Power Purchase Agreement with GreenPower EMC, the umbrella organization of Georgia's EMCs responsible for purchase of renewable energy. As one of the largest arrays in Georgia, this was an exciting first project under FCE's partnership with Green Power EMC to deploy several solar projects across the State.
